

LLM Content Optimization System™

Win in a world where ChatGPT is the new Google.

A turn-key, 90-day fixed-price program designed to re-architect your content engine for the AI-first buyer journey. We get content surfaced, cited, and trusted in tools like ChatGPT, Perplexity, and Claude, because that's where buying decisions are made now.

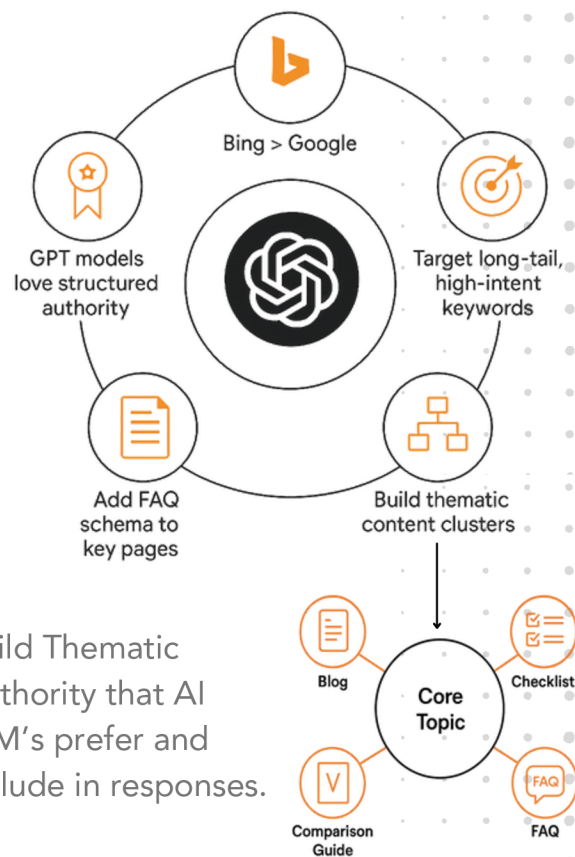

HOW WE HELP:

✓ **Precision Targeting for AI Discovery:**
We map high-intent, long-tail buyer questions and align your content strategy to match the way LLMs interpret and surface answers. Forget "CRM software." Think "best CRM for remote sales reps managing enterprise accounts."

✓ **Structured Content That LLMs Love:**
We rewire your site and core pages with the schemas, signals, and structure that increase visibility inside AI-generated answers. FAQ schema. Hub-and-spoke topic clusters. Structured authority from trusted domains.

✓ **Thematic Authority That Gets You Cited:**
LLMs validate authority through citations on platforms like Reddit, Hacker News, and Quora. We orchestrate lightweight PR, backlink acquisition, and thematic content layering to increase trust and inclusion.

BEYOND SEO

WHY WORK WITH US?

Category Creation Experience
We've built brands that define and dominate new spaces.

Fixed-Price
Zero Scope Creep. 90 days. \$25k. Full execution.

Strategic Depth, Tactical Speed
This isn't SEO 2.0. It's positioning for a new ecosystem.
